

PROTECTIVE INDUSTRIAL PRODUCTS

202-132 Specification Sheet

DOUBLE LAYER HOODS

PRODUCT DESCRIPTION:

100% Nomex hoods with bibs, slit-eye, double layer

- 100% Nomex® hoods offer limited chemical splash protection along with excellent wear and durability.
- 100% Nomex® fabric's protective qualities will not wash out.
- Fabric meets OSHA requirements for flame resistance.

Protective Barrier:

Nomex® carbonizes and thickens when exposed to intense heat. This increases the protective barrier between the heat source and the skin and minimizes burn injury. This tough protective barrier stays supple and flexible until it cools, which gives you valuable extra seconds of protection when you need it most.

Durability:

Garmets made of Nomex® are also durable, lasting on average two to three times longer than other standard protective fabrics. Apparel made of Nomex® has an average wear life of approximately five years and can be washed and worn at least 125 times compared to garmets made of FRT cotton which can be washed and worn an average of 30-50 times.

Applications:

Ideal for use in chemical plants, metal and glass manufacturing, natural gas production and distribution and law enforcement.

TECHNICAL DATA:

Material: Nomex®

Color: White

Available Sizes: One size

Packaging: 1 per bag; 12 per case

Hood Weight: 0.15 lbs / 0.07 kg

Case Weight: 1.8 lbs / 0.8 kg

Country of Origin/Harmonization Code: USA/6506.99.6000

DIMENSIONS:

<u>Size Available</u>	<u>One size</u>
Over Length (cm) - A	48.3
(in)	19
Width 1 (cm) - B	23.5
(in)	9
Width 2 (cm) - C	19.7
(in)	7.75
Width 3 (cm) - D	28.6
(in)	11.25
Crown (cm) - E	8.9
(in)	3.5
